The product terms provide that if certain exceptions events occur adjustments may be made to the product. These events are specified in the product terms and principally relate to the Underlying(s), the product and the Issuer of the product. The return (if any) you receive on such early termination is likely to be different from the scenarios described below and may be less than the amount you invested.

All redemptions described in this document (including potential gains) are calculated on the basis of the Notional Amount, excluding costs, social contributions and taxation applicable to this type of investment.

Intended Retail Investors:

The product is intended to be offered to retail investors who

- have a short-term investment horizon (less than three years).
- seek to invest in an income paying product, potentially to diversify their portfolio.
- are able to bear losses up to the total of the Notional Amount.
- have been informed or have sufficient knowledge of the financial markets, their functioning and their risks, and the asset class of the underlying.

Term:

1 year

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

<p>Lower risk Higher risk</p> <p style="text-align: center;">←—————→</p>	<p>The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.</p> <p>We have classified this product as 5 out of 7, which is a medium-high risk class.</p> <p>This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.</p>

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 5 years. Markets could develop very differently in the future.

Investment EUR 10.000 (under the assumption of holding until maturity or early redemption at the option of the issuer).		
Scenarios		1 Year (Recommended holding period)
Stress scenario	What you might get after costs Average annual return	EUR 2.225 -77,75%
Unfavourable scenario	What you might get after costs Average annual return	EUR 7.214 -27,86%
Moderate scenario	What you might get after costs Average annual return	EUR 10.700 7,00%
Favourable scenario	What you might get after costs Average annual return	EUR 10.700 7,00 %

The figures shown include all costs of the product itself, but may not include all the costs, that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. Your maximum loss would be that you will lose all your investment.

WHAT HAPPENS IF BANQUE ET CAISSE D'EPARGNE DE L'ETAT, LUXEMBOURG IS UNABLE TO PAY OUT?

In the event of bankruptcy or restructuring (e.g. bail-in) of the issuer, pursuant to Directive 2014/59/EU, you run the risk that the capital initially invested will only be reimbursed partially, or even not at all, at maturity. In this case, you also run the risk that the capital gain will not be paid. This product cannot be considered as a deposit and is therefore not protected under the Luxembourg deposit protection system.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: until final maturity.

Under normal market conditions, Banque et Caisse d'Epargne de l'Etat, Luxembourg (Spuerkeess) ensures a daily secondary market throughout the life of the product by providing purchase and sale prices expressed as a percentage of the nominal value and the difference between the buy and sell prices (the spread) will not be greater than 1% of this nominal value. If you wish to sell this product before the maturity date, the price of the product will depend on the evolution of market parameters at the time of release. In this case, this could put the invested amount at risk.

HOW CAN I COMPLAIN?
