You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type:	Bond claim in EMTN format with the right to reimbursement of the capital invested.						
Objective:	<p>The objective of this product is to provide you with a participation in percentage of any positive performance of the Underlying Index (the Euro Stoxx 50). The possibilities for the redemption of the product are as follows:</p> <ul style="list-style-type: none"> (i) If the Closing Price of the Underlying Index on the Determination Date is at or below its Strike Price, you will receive on the Maturity Date a Redemption Amount equal to 100% of your capital initially invested. (ii) If the Closing Price of the Underlying Index on the Determination Date is above its Strike Price, you will receive a Redemption Amount which equals the Nominal Value plus 55 % of the positive performance of the Underlying Index. <p>No coupon will be paid and the investor will not have any entitlement to a dividend or voting rights in respect of the Underlying Index or shares contained in the Underlying Index.</p> <p>This product entitles you, at the final maturity or on the date of early redemption, to the reimbursement of 100% of your capital initially invested. In the event of bankruptcy or restructuring of the issuer (Banque et Caisse d'Epargne de l'Etat, Luxembourg), imposed by the resolution authority in order to avoid bankruptcy, you run the risk of not recovering the sums to which you are entitled and partially or totally lose the amount invested. The right to redemption of 100% of the capital invested is not applicable in the event of disinvestment (i) before the date of early redemption or (ii) before the final maturity date, under the condition that there has not been an early redemption. The product cannot be called or terminated early at the sole discretion of the Issuer.</p>						
Targeted Retail Investors:	<p>The product is intended to be offered to retail investors who</p> <ul style="list-style-type: none"> • are looking for a product with guaranteed capital; • believe that the Underlying Index appreciates over the term of the note; • wish to have a right to reimbursement of the capital invested at the final maturity; • have sufficient knowledge and experience of the product and • have a short to medium term investment horizon.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR							
Lower risk							Higher risk
←—————→							
1	2	3	4	5	6	7	
<p>The risk indicator assumes that you keep the product for the recommended holding period. The actual risk may be very different if you opt to exit before maturity, and you may get less in return. You may not be able to sell the product easily, or you may have to sell it at a price that will significantly affect the amount you receive in return.</p>				<p>The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.</p> <p>We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very to impact our capacity to pay you.</p> <p>You are entitled to receive back at least 100% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance does not apply in the event of an exit before the final maturity.</p> <p>If we are not able to pay you what is owed, you could lose your entire investment.</p>			

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the EuroStoxx 50 over the last 5 years. Markets could develop very differently in the future. The stress scenario shows what you could get in extreme market situations. This type of scenario occurred for an investment in EuroStoxx 50 between 2019 and 2024

Investment EUR 10.000 (under the assumption of holding until maturity or early redemption at the option of the issuer).			
Scenarios		1 year	3 years (Recommended holding period)
Stress scenario	What you might get after costs	EUR 9.519,00	EUR 9950,00
	Average annual return	-4,81%	-0,17%
Unfavourable scenario	What you might get after costs	EUR 9.519,00	EUR 9950,00
	Average annual return	-4,81%	-0,17%
Moderate scenario	What you might get after costs	EUR 9.857,00	EUR 10954,00
	Average annual return	-1,43%	3,08%
Favourable scenario	What you might get after costs	EUR 11.565,00	EUR 14.682,00
	Average annual return	15,65%	13,66%

The figures shown include all costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

This table shows how much you could get over 3 years, under different scenarios, assuming you invest EUR 10.000.

The different scenarios show how your investment might perform. You can compare them with the scenarios of other products.

WHAT HAPPENS IF BANQUE ET CAISSE D'EPARGNE DE L'ETAT, LUXEMBOURG IS UNABLE TO PAY OUT?

In the event of bankruptcy or restructuring (e.g. bail-in) of the issuer, pursuant to Directive 2014/59/EU, you run the risk that the capital initially invested will only be reimbursed partially, or even not at all, at maturity. In this case, you also run the risk that the capital gain will not be paid.

This product cannot be considered as a deposit and is therefore not protected under the Luxembourg deposit protection system.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- you would get back the amount that you invested (0,00% annual return).
- EUR 10.000 respectively EUR 60.000 is invested

Scenario 1: subscription of 6 denominations at EUR 10.000

Investment EUR 60.000 Scenarios	If you exit after 1 year	If you exit after 2 years	If you keep the product until final maturity (recommended holding period)
Total costs	EUR 360	EUR 360	EUR 300
Annual cost impact(*)	0,60%	0,30%	0,17%

Scenario 2: subscription of 1 denomination at EUR 10.000

Investment EUR 10.000 Scenarios	If you exit after 1 year	If you exit after 2 years	If you keep the product until final maturity (recommended holding period)
Total costs	EUR 100	EUR 100	EUR 50
Annual cost impact(*)	1,00%	0,50%	0,17%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit an investment of more than 50.000 EUR after two years your average return per year is projected to be 5,00% before costs and 4,71% after costs.

COST BREAKDOWN

The table below shows:

- the impact of the different types of charges on the return on the investment that you could obtain over time;

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: until final maturity.

Under normal market conditions, Banque et Caisse d'Epargne de l'Etat, Luxembourg (Spuerkeess) ensures a daily secondary market throughout the life of the product by providing purchase and sale prices expressed as a percentage of the nominal value and the difference between the buy and sell prices (the spread) will not be greater than 1% of this nominal value. If you wish to sell this product before the maturity date, the price of the product will depend on the evolution of market parameters at the time of release. In this case, this could lead to a partial loss of the amount invested.

HOW CAN I COMPLAIN?
