This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

LUX-BOND HIGH INCOME, capitalisation (class B) (LU0053260369) a sub-fund of LUX-BOND

This sub-fund is managed by the Management Company BCEE Asset Management S.A., subsidiary of Banque et Caisse d'Epargne de l'Etat, Luxembourg.

Objectives and investment policy

Objectives

The objective of the sub-fund is medium and long-term capital appreciation by investing primarily in a selection of undertakings for collective investment which, themselves, invest mainly in fixed income securities or similar fixed or floating-rate income securities, and/or money market instruments.

Investment policy

LUX-BOND HIGH INCOME invests:

- mainly in open-ended undertakings for collective investment which, themselves, invest mainly in fixed or floating-rate income securities or similar securities and/or money market instruments;
- incidentally in undertakings for collective investment listed or traded on a regulated market which, in turn, invest primarily in fixed or floating-rate income securities or similar securities and/or money

market instruments and directly in bond or similar fixed or floating-rate income securities.

These undertakings for collective investment may invest globally, by region or individually in emerging market countries.

The sub-fund may, within legal limits, hold cash and money market instruments.

For the purpose of good portfolio management and/or hedging, the sub-fund may also use all the financial derivative instruments and other techniques/instruments set out in the Investment Restrictions in the prospectus, within the limits provided.

The sub-fund is actively managed without reference to a benchmark.

Investors may redeem their shares daily.

Income of this share class is in principle distributed.

Risk and reward profile

The indicator describes the fluctuation risk of the net asset value per share and may shift over time.

The category 3 means a moderate risk and consequently moderate potential losses and gains.

The lowest category of the risk indicator does not mean a risk-free investment.

This risk indicator was determined on the basis of historical and simulated performance over the past five years. It may not be a reliable indicator of

the future risk profile of the sub-fund.

Several types of risks are not completely taken into account by the indicator and may influence the net asset value of the share:

- Liquidity risk:** Liquidity problems on financial markets that may affect the purchase or sale of fund positions.
- Counterparty risk:** Problems experienced by a counterparty in view of his obligations towards the fund may have a negative impact on its value.
- Operational risk:** Failures in the operational process may have a negative impact on the value of the fund.

Additional information concerning the risks can be found in the fund's prospectus which is available on the website www.bcee-am.lu.

Charges

One-off charges taken before or after you invest	
Entry charge	2.50%
